APPOINTMENT OF TURN-KEY SOLUTION CONTRACTOR, SQ CIDB GRADING (SQ6 OR HIGHER) TO DO DESIGN & INSTALL A PERIMETER CLEAR VIEW FENCE INCLUDING GATES AT THE HEIDELBERG EXTENSION 24 SITE, WITHIN THE LESEDI LOCAL MUNICIPALITY

1. INTRODUCTION

Government seeks to shift the national economy onto an industrialization and growth pathway that is inclusive, value-adding and exports-driven. Key national and provincial government economic development policies such as the National Development Plan 2030 (NDP), the New Growth Path (NGP), Industrial Policy Action Plan (IPAP), as well as Growing Gauteng Together 2030 (GGT2030) outline the foreground and key thrusts for this economic transformation and reorientation agenda. The objective is to create jobs, reverse under-development and rollback the debilitating contours of poverty in our country.

The Special Economic Zone (SEZ) programme is one of a suite of critical policy instruments that have been prioritized to drive the country's reindustrialization and global competitiveness. The SEZ Act (No. 16 of 2014), its key legislative framework as well as promulgated regulations form the backdrop for the nation-wide implementation and roll-out of the SEZ programme. More particularly, the SEZ legislative regime takes aim at the:

- Promotion industrial agglomeration.
- Investment mobilization and deployment of acupunctural world-class industrial infrastructure.
- Promotion of coordinated planning across different layers of government, its key agencies, private sector and other social partners; and to
- Guiding the deployment of other necessary economic development tools and interventions.

2. BACKGROUND

As an agency of the Gauteng Provincial Government, the GGDA through its economic development policy and strategy - targets investment acceleration through economic and industrial plan formulation and deployment to attract and provide support to investors, attract capital investment, stimulate and revitalize industries, facilitate technology transfer and innovation, and encourage skills development as well as the creation of high-quality employment opportunities. In the service of this objective, GGDA seeks to create:

- a favorable business climate to promote & attract investment.
- an investment-friendly environment to attract & encourage domestic and foreign investment.
- a stronger commitment to a policy environment that is responsive to attraction of fiscally stable, fixed and increasing investment inflows; and
- policy & process certainty through a predictable, transparent, and efficient development facilitation intervention.

3. VAAL SPECIAL ECONOMIC ZONE

The proposed Vaal SEZ has been conceived by the GGDA as part of a portfolio of selected targeted economic growth program aimed at driving inclusive economic growth throughout the Gauteng province. A Project Implementation Unit has been established within the GGDA, to drive the development, planning and implementation work that is expected to culminate in the emergence of a designated multi-sectoral and multi-sited Vaal SEZ, with a spatial footprint within the Sedibeng District Municipality and its three local municipalities of Lesedi, Midvaal and Emfuleni. The multi-sites and multi-sector Vaal SEZ have managed to secure suitable establishment land parcels within the Sedibeng District Municipality and its three Local Municipalities of Lesedi, Emfuleni and Midvaal. All these sites are currently being developed for occupation by identified current and future investors, following infrastructure master planning currently underway and soon-to-follow designation processes.

The Master Plan for the Vaal SEZ is in its final stage of completion and approval and the process for Vaal SEZ designation is about to be launched by the PMU. Also underway is arrangements for the proclamation and development of the secured land parcels of the Vaal SEZ.

4. CURRENT STATUS OF THE SITE

The identified Heidelberg Extension 24 Site is one of the proposed Vaal SEZ land parcels. The identified site is at present partially brownfield and largely greenfield which is also partially occupied and unsecured. This renders the site vulnerable to unlawful occupation or unauthorized alienation from the intended purposes of the Vaal SEZ. There is therefore an urgent need to secure the identified land parcel in the name and favor of the Vaal SEZ and its stated objectives.

The installation of clear view fencing infrastructure is to demarcate, secure and protect this identified land parcel in favor of the Vaal SEZ. Such is not only important to ward-off unlawful or unauthorized occupation, but it will also serve as an important signal to the market and key potential stakeholders who have already demonstrated appetite, of the readiness of the Vaal SEZ. Such fencing-off and demarcation will also mark out the geographic contours of the Vaal this SEZ land parcel and enhance efforts underway to identify, attract and secure domestic and foreign investors. It will also serve to strengthen positive investor confidence overall of the intention of the province for the area of the Vaal and serve to mobilize private sector investment even at this early stage of the Vaal SEZ establishment process.

What is being proposed is the design and installation of the clear-vu fence infrastructure including gates on the identified Heidelberg Extension 24 land parcel within the Lesedi Local Municipality proposed Vaal SEZ Sites. The proposed clear-vu fencing is expected to consist of high security fencing, fire break, gravel route on both side of the fence (fire break) and access control gates. The installation is expected to be fully compliant with applicable professional engineering and safety standards for similar installations.

5. SPECIFIC SITE LOCATION

The locality map of the implicated land parcels are as shown below, as is a description of the locality.

The Heidelberg Extension 24 is situated directly in front of the LCS Group Head Office in Meyer Street. Meyer Street marks the eastern boundary of the site. A railway line hugs the north and north-western boundary of the site.
